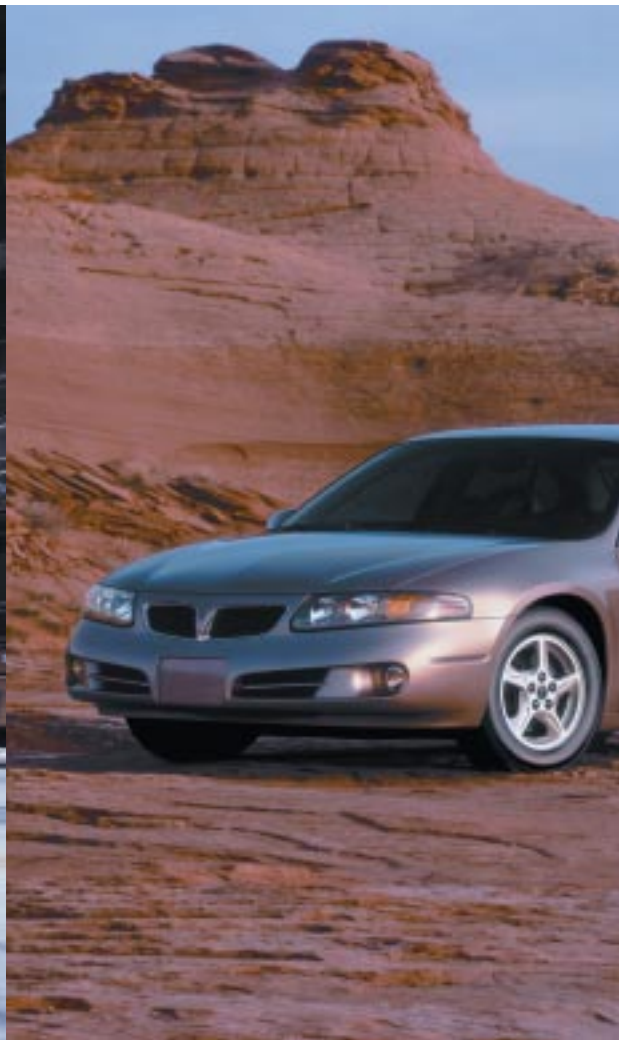
Vehicle Acquisition & Leasing



alternative fuel vehicles, *sedans, heavy trucks, buses,* *and* *much* *more*
to *buy or lease*, *gsa steers you in the right direction*
to meet *all* *your* *vehicle needs*

it's that time again spring cleaning...

Brett Schrack

Spring has sprung and cleaning should have begun. Let's face it; old man winter can cause an array of troubles. Everything from broken branches to downed power lines, from potholes to sink holes can be caused by extreme winter weather conditions.

With winter coming to an end it's time to throw open the shutters, roll up the rugs and engage in some heavy duty cleaning. But, sometimes the toughest part of spring cleaning is getting started. GSA Automotive can provide you the right tools to make the job manageable, under GSA Automotive's Vehicular Multiple Award Schedule (VMAS) 23V.

With just one look on Schedules E-library or GSA*Advantage!*®, everything needed to manage the cleanup left by the heavy winter weather can be acquired.

For those broken branches and downed trees, Special Item Number (SIN) 271-105, Woodchipping/Shredders, Stump Removal and Tub Grinding Equipment, has everything you may need. This SIN covers a variety of manufacturers, commercial models and options for woodchippers, shredders, stump removers and tub grinding equipment. Also, SIN 271-108 provides for all your spare part and accessory needs.

For potholes and road repairs, SIN 271-106, Street Repair and Miscellaneous Equipment, has the products and equipment you need to get the job done. All the products you could ever need for road repair can be found under this SIN.

Products include, descaling equipment, traffic line removers, direct and indirect mixers, road kettles, walk-behind rollers, compactor equipment, concrete vibrators and asphalt heaters and kettles. SIN 271-108 also provides spare parts and accessories for street repair equipment.

As for the roads that just need some polish and shine, SIN 271-104, cleaning and clearing equipment, also has street sweepers and scrubbers for all your road cleaning and clearing needs.

For our customers who have really heavy duty cleaning ahead of them, see SIN 271-101, Construction Equipment. This SIN includes

products such as wheeled and tracked tractors, loaders (front end with or without backhoes), skid steer loaders, excavators, crawler dozers, tool carriers, track-type loaders, motor graders, scrapers, load alls, rider operated dump vehicles, rider operated ditchers/trenchers (tracked or wheeled), wheeled and tracked cranes (rough terrain; all terrain and highway). For attachments to skid steers, trucks, tractors and backhoes, see SIN 272-101, Construction Equipment Attachments.

Though it can be a long and tedious job, arming yourself with the correct products can make your spring cleaning a much less daunting task. Please look for the above Special Item Numbers and products at: **www.gsaelibrary.gsa.gov** and **www.gsaadvantage.gov**. If you require assistance or have questions, call GSA Automotive's Customer CARE, Marketing and Systems Division at (703) 308-CARS.

The Original Since 1977
